

The City of Scottsdale/City Court (Court) provides filtered wireless internet access at no cost to court visitors including; defendants, attorneys, vendors/contractors and jurors who are on-site for a court related matter.

The Court Wi-Fi is a wireless service utilizing IEEE 802.11B/G/N technology. It does not cover any cellular service or any type of wired connectivity.

Users must have a compatible wireless-enabled device to connect to the court Wi-Fi; no wired connections are provided. Coverage areas include lobby, courtrooms, attorney meeting rooms, and the jury assembly room.

Terms of Use

Wi-Fi is provided as a benefit and convenience and is intended for use only by persons having business with the court. Use of the court's WI-FI is a privilege and not a right. As such, the court may terminate the WI-FI service for any reason, at any time without notice. Illegal use of the connectivity will be reported to law enforcement. Individual judges may issue specific orders regarding the use of Wi-Fi in their courtrooms and by jurors.

The Court is not a full-service Internet provider as some Internet services may not be provided through the court's connection for financial, technology or security reasons.

The Court protects its systems and equipment from viruses. Users of any publicly accessible system should be aware of the potential for transmission of computer viruses. The court is not responsible for computer viruses transmitted to customers' computers. No technical or other support is provided by city or court staff.

The Court is not liable to users for any breach of security that may result from the use of the court Wi-Fi; users are fully responsible for providing their own security measures and for taking adequate measure to safeguard data.

The Court is not responsible for the content and or accuracy of information obtained from sources other than the city or court's website.

The Court provides filtered access to the Internet to comply with Arizona Revised Statutes § 13-3501, 13-3506.01, and 13-3507. The Court restricts access to Internet sites that fall within the categories "sex" and "adult" content. Because filtered access is inherently imperfect, the court does not guarantee that all Internet content will be appropriately filtered at all times. Discovery of content that is not appropriately filtered in no way exempts users from ARS § 13-3507 "Public Display of Explicit Sexual Material".

The City and Court reserves the right to monitor traffic volume/system security and to rescind access.

A user who believes that the court Wi-Fi is not properly functioning should notify court administration, in person, or by phone 480.312.2772.
